FIG best practices publication

- Based on reports the four key areas of 3D Cadastres:
 1. Legal framework 3D Cadastres
 2. Initial registration of 3D parcels
 3. 3D data management
 4. Visualization, distribution and delivery of 3D parcels
- More co-authors welcome, including the constructive reviewers
- To be discussed further during workshop

The screenshot shows the FIG website's navigation and content structure. At the top left is the FIG logo (International Federation of Surveyors / Fédération Internationale des Géomètres / Internationale Vereinigung der Vermessungsingenieure). A navigation menu includes Home, News, Organisation, Members, Resources, Partners, Foundation, Events, and About FIG. Below this is a secondary menu with General, Publications, Proceedings, Databases, Articles about FIG, Article of the Month, and e-Newsletter. The breadcrumb trail reads: Home > Resources > Publications > FIG Publications. The main content area is titled 'FIG Publications' and displays a grid of publication thumbnails, including 'Reference Frame', 'Ellipsoidal Reference for Hyd', 'The Atlas', and 'The FIG Profile'.
